A Jim Mooney aerial photo of the center of Patchogue, taken September 2, 1967, shows clearly all the Patchogue parking fields created in the 1960's. In this picture Main Street is running from left to right through the center of the picture and North and South Ocean Avenues are running from the bottom right corner to the top left corner. The parking fields surrounding the Four Corners are, starting clockwise from the bottom left: the Oak Street field, the Terry Street field, the Church Street field and the Lake Street field.Together they provided several hundred parking spaces.

A birds eye view of the Patchogue Elevated Parking Garage, behind the bank building on Main Street. A Jim Mooney photo, December 29, 1978. The upper tier had to be closed in October 2001 when major structural problems were discovered. The structure was torn down in January 2003.
