

The intersection of Waverly Avenue and Sunrise Highway from a birds perspective. A 1980's Jim Mooney photo.

The North Ocean Avenue bridge under construction, June 1989. The reconstruction of Sunrise Highway, to turn it into a limited access highway, began in 1988 on the Nichols Road to Phyllis Drive section. Again this section was started before the Oakdale to Sayville section

This picture of Sunrise Highway under construction was taken in 1989 from the North Ocean Avenue crossing looking west. The Waverly Avenue bridge, under construction, can be seen in the distance.
