

Aerial view of the Route 112 intersection, October 24, 1991. In preparation for the bridge construction, the traffic had to be elaborately rerouted around the construction site. In the upper part of the picture the finished North Ocean Avenue bridge is visible. While the section from Nichols Road to North Ocean Avenue was completed by November 1989, the section from Route 112 to Phyllis Drive was not completed till October 1990. This is another beautiful Jim Mooney Eagle Eye Air Photo.

The finished highway, looking west from the North Ocean Avenue bridge.
