

The Copper Beach Village Project

This is the corner of South Ocean Avenue and Gerard Street. The old Copper Beach in this picture gave the name to this condominium project. The former Unique Theater building on the right and the home in the background soon would fall victim to the wreckers ball.

This is the same corner as in the above picture, only one hundred years ago. It is the home of Dr. Foster. The little tree on the left most likely is the same Copper Beach we see today on this corner.

A picture of Gerard Street , December 7, 2005. All these buildings were demolished after negotiations with the homeowners were completed.
