Dear Mr.

In re-
sponse to your
date, I thank
you all.

Concerning myself and my brother
Charles, who took part in the World War.

As for myself, I really cannot
mention much for my time in Uncle
Sam's service was rather short
ranging three months during the
signing of the Armistice.

But still, I attempted to do my
share, for as soon as I was
eighteen years old and had
graduated from the Patchogue
High School in June, 1918, from
whence I know you well, when

14

we were our Superintendent, I immediately tried and succeeded in getting into the service thru enlistment. The enlistment resulted in getting inducted into the Students Army Training Corps at Columbia University on Sept. 21, 1918, where at present I am studying Accountancy.

These are about the only important facts that I can relate concerning myself, but regarding my brother, Charles who was killed in France, in the "Baccarat Sector" on June 14, 1918, three days before our graduation exercise, I can give fuller detail. He was a member of the 77th Division, Corporal of Co. B, 308th Infantry and trained at Camp Upton from Sept. 21, 1917 to April 5th 1918 when the entire division left America for France.

After arriving to England's shores their route was thru England and then to France, their final destination, not reaching there the first of May. About a month's hard training

was sufficient for the Boys who were at that time in urgent need for action and relief work in the trenches. In a few moments notice, Charles was placed in action with Co. B. in which he was a corporal. At first, they were ordered for action in the second line trenches and continued fighting from June the 5th until June 14th, the day on which he wrote us his last and lovely letter saying everything was going on nicely in the trenches.

They were then relieved until June the 20th when the entire company was ordered to advance to the front line trenches. There in fact for the first time, the Boys fought really hard and stubborn against "Jerry" for three days in the "Blackcat Sector".

Finally, on the early morning of June the 24th at 2 a.m. a guard received orders to get up a platoon of 40 well-set men, mostly corporals, sergeants and lieutenants who were skilled and knew accurately

how to cut "barbed wire" fencing". Among this unexpected call of 40 men was my brother Charles who also knew his duties well.

The platoon advanced to do their duty at a distance away, from the first line trench in "No. Mans Land". On the mentioned "Jerry" was constantly popping bullets here, there, above and below with rifle, shrapnel and machine gun.

Thus after working steadily for 4 hours in the dark cutting barbed wire fences, at 6 P.M. a sharp sudden, terrible attack was made on the platoon which instantly gassed, killed and wounded all with the exception of four who miraculously escaped instant death.

My brother was taken to the trenches from the place of unexpected attack, gassed and mortally wounded in the hip, left arm and side by pieces of shrapnel. But though still pale from the loss of blood, badly wounded and lying in a semi-conscious state in the trenches, he recognized his best pal, his "Buddie" who was sadly looking on and said to him, "Sarge, remember me to mother and Leo".

He lived shortly, only two hours later he died on his way, as he was being taken from the "First Aid Station" to the "Red Cross Hospital". Enclosed is his picture as corporal of a squad which he trained at Camp Upton.

Yours Sincerely
Anthony Miralber.

Hatchogue, L. I., N.

Dr. Jordan

Dear Sir:

In regards to
Question "Honors rec"
not sure what is included. My
promotions might come under
that head. I was made Private
first class about two days before
being made Corporal which
was July 5th 1918.

The only other point of
interest is a G. S. W. left cheek
received Sept. 22nd at Mon Plaisir.

Respectfully yours

E. D. Newton

Mr. Wellington E. Gordon
Patchogue, N.Y.
Dear Sir.

Received your letter of the 5th inst. asking me for a little information about my service, and am willing to give the desired information.

On the 12th day of June, 1915 I enlisted at the Naval Base at West Sayville Long Island.

Went up to Pelham Bay Naval Training Sta. into Isolation Camp. after being there for a period of 3 weeks I was sent over to the 4th Regiment, then into the 3rd Regiment on the 22nd of September. I was sent to the Rifle Range ~~and~~ at Peekskill N.Y. I acquired sharpshooter just as the "Flu" broke out and as I was healthy they wanted Volunteers for Hospital Apprentices.

Dear Sir.

Received your letter and don't
(know) know what to say. I could tell you better about it if
I could see you. I would be glad to answer any thing
on it. I am not much of a writer. So if you want me
let me know please. And I will come. I do not know where your
Office is. I did not get ~~wounded~~. I got gassed Oct. 9.

1918, and did not see any more of the Battle line.
After the War ended I came home. One of the lucky ones to get
home first. I am sending you a picture that I had
taking just as soon as I got home. I hope it is all
right. This will be all. Hoping to hear from you if you
want me to come and tell you more of my War Experience

Will be glad to do any thing for the town of Patchogue.

Sincerely yours

Sigvard M. Olsen.

Patchogue N.Y.

Dr. Jordan.

Dear Sir:-

Your letter of recent date received but neglected to answer as it was lost and had not noted address. but on inquiry found out that you were the Austrian. so will try and give you all the data on my service which was slight. I enlisted in the

Tank Corps Sept. 19. 1918. and was sent to Camp Polk. Raleigh N.C. and assigned to the 341 Battalion Tank Co.C. We were under sailing orders when Armistice was signed. was there after transferred to Camp Green. to be demobilized and finally discharged at Camp Upton N.Y. Jan 3. 1919

I was 40 years old when enlisting. having 15 years previous service. serving 14 years in the Navy. was with Dewey at Manila and with the expedition in China during the boxer outbreak. Should you want any further information will be pleased to oblige. Yours Respectfully, Amos M. Peterson

Dear Sir,

Your request was
I take please in doing
favors. Enclose you will
and questionnaires filled out

I regard to the
which I have experienced
of them in a very plain manner.

I sailed across on the U.S.S. Canonicus
for U.S. Naval Bases number nineteen and
eighteen. The chief object was to lay a mine
barage from Norway to Scotland and block the
U-boats from the Atlantic. We were known as
the "Suicide Fleet" or the U.S. Mine Fleet
Squadron number one. We completed our
undertaking and were supposed to go to the
Mediterranean Sea and mine the Adriatic Sea
but the hostilities were ceased and it was called
off.

VILLAGE OF PATCHOGUE, N. Y.
WELLINGTON E. GORDON, LOCAL HISTORIAN

Naval Reserve Battalion, Patchogue, Sept. 16, 1919

K. of C. Reception to Gen. Pershing
Savoy Hotel, London,
July 18, 1918

Report of Edga C. Sharp Patchogue, N.Y.
as Commissioner of Knights of Columbus
to Great Britain.

Dear Doctor Gordon:

As promised I have written below a brief outline of my movements and activities while on the other side, have also enclosed a few pictures which may be of some use to you.

When America entered the Worlds War and it was decided that Camp Upton, L.I. was to be developed into the most important training camp in the country I was asked by the Supreme Officers of the Knights of Columbus to supervise the erection of three Recreation Buildings in that camp and was also told at the time that the reputation of the Knights of Columbus in connection with the welfare work they were just taking up depended a great deal on our success at Camp Upton. If we didnt have buildings that would do credit to us and if they ~~were~~ *were not* placed in good locations the work of the K. of C. would get a black eye from which it would be hard to recover and on the other hand if our buildings at this Camp were well constructed and well located we would be able to fall down at other places but still make a reputation due to the fact that Camp Upton was so closely situated to the most critical city in the world (New York) and on account of this Camps close proximity which would enable thousands of New Yorkers to visit the Camp we must spare no effort at this point to have three of the best Recreation Huts in the country. Three fine huts were constructed at three of the most popular locations in the Camp and the Supreme Officers of the K. of C. were so pleased that I was given the opportunity to go to France to be engaged in the same sort of work in the different training and rest camps in that country.

I sailed for France in April 1918 and upon my arrival in that country was located in both Paris and Bordeaux. I found it a very difficult matter to purchase lumber and have same transported to the different camps also discovered that labor was very scarce due to the fact that nearly every man was performing some sort of military service. As time was valuable to our cause and to eliminate the difficulties enumerated above I entered into a contract with a number of firms in France whose specialty was building portable huts and these huts were built in sections and shipped to the different camps which procedure worked out very successfully.

Besides performing the duties of my position which was Supt. of Construction I also had charge of the different K. of C. activities in the southern and southwestern part of France and during most of the time I was located in France I made my Headquarters at Bordeaux which city was a very important point *during* those days, more than two hundred thousand American Soldiers ~~were~~ *being* quartered in the different training and rest camps adjacent to Bordeaux.

Handwritten text at the top of the page, possibly a title or header.

Handwritten text block, likely the beginning of a letter or report.

Main body of handwritten text, consisting of several paragraphs.

Handwritten text block, possibly a continuation or a separate section.

Handwritten text at the bottom of the page, possibly a signature or closing.

The latter part of August 1918 after a five months period of service I was promoted to the position of K. of C. Commissioner for the British Isles with Headquarters in London, England from which Headquarters I was to direct our work in England, Scotland, Ireland and Wales. Soon had in operation three large Clubs in London which places provided sleeping accommodations for hundreds of men daily besides all forms of healthy amusement. Also had places in Southampton, Plymouth, Dicast, Market Drayton, Little Hampton, Winchester, Knotty Ash - Liverpool, England. - Cardiff, Wales - Dublin, Ireland and at Glasgow, Edinburgh, Inverness, Invergorden, Kirkwall and Lerwick Scotland the last two named places being in the Orkney Islands and Shetlands respectively.

The American Mine Sweeping Fleet were working in the North Sea and made their base at different times at Inverness, Invergorden, Kirkwall and Lerwick. These brave American lads that were engaged in this work experienced all the dangers of war for months after the Armistice was signed. The Americans lay most of the mines in the North Sea after it was claimed by nearly all the British and French Naval Commanders that it would not be possible to mine this sea due to its vast expanse but the different American Commanders in the British waters at that time said it could be done and it was done and done successfully. As soon as the Armistice was signed the American started taking up the mines which proved to be quite a difficult matter and their task was not accomplished until the middle of Sept. 1919. Every few days one of the mine sweeping boats would accidentally come in contact with a floating mine which meant a sunken ship and the loss of a number of lives. On account of the extra hazardous work our boys were performing in the North Sea also the fact that at the places ~~we~~^{they} were using as Base's not being places where the men could find much recreation I made a specialty of looking after ~~these~~^{our} boys located in the Northern parts of Scotland and always had assigned to the different K. of C. places at these points the best men that came over sea's to perform welfare work. During their sojourn in these northern waters I shipped to them from our Headquarters in London thousands of pounds of candy and great quantities of all kinds of tobacco. When these sailors would obtain shore leave they would find at our different places all forms of clean healthy amusement arranged for their entertainment and I know from experience that our efforts in looking out for their welfare was greatly appreciated.

In the large cities such as London and at all the important centers we provided all sorts of amusement for our men such as dances, sight seeing tours, entertainments and lectures. Also served breakfast and light refreshments in all Clubs providing sleeping accommodations and the K. of C. during the entire period they carried on their War Work adhered to their policy of ~~every~~^{everybody welcome} thing free and during all their experience in the work they have never sold an article or received one penny from an American Soldier or Sailor in exchange for ~~any~~^{articles given} courtesies extended. We have been criticized by some people on account of our Every thing Free Policy but it was always our idea that we acted only as the agents of the American people - we were as you might say the connecting link between the people back home and the boy on the other side. The mother might give five dollars towards providing her boy with some comforts and we felt when were providing these comforts that we were representing this mother and not our own organization.

BOOK

WEBB

Liked my stay in the British Isles very much with the exception of the weather. ~~I think~~ we experienced a period of One hundred and fifty days in London during the fall and winter of 1918 and 1919 without seeing one sunny day. The fogs were so thick in Nov. and Dec. that one had to drive headlights on his car in the middle of the day right in the heart of London. It rained nearly every day and the English people get rather used to it but not so with the Americans. I remember one day when visiting our Club at Cardiff, Wales I happened to be looking over the register which we kept in every Club and I noticed that an American sailor had written some poetry under his name and address and from the tone of the poetry I could easily tell that he wasn't favorably impressed with the English climate, the poetry ran something like this -

Dirty days has Sept. April June and November.
All the rest have thirty one without a blessed gleam of sun.
From January till the first of May the rain it raineth every day.
And if any month had two and thirty, they'd be just as wet and just as dirty.

We closed all our activities in the British Isles the early part of Nov. and in company with my wife who had joined me in London the previous August we visited Paris, all the American battle fronts, the American cemeteries, grave of Quentin Roosevelt, Rheims, Chatteau Thiery, Verdun, - Brussels, Antwerp, Ostend and Zeebruggee in Belgium all the occupied territory along the Rhine Germany - such places in the southern part of France as Lourdes, Nice, Monte Carlo, Monaco and Mentone, over the border into Italy stopping at Genoa, Milano, Venice, Florence, Rome and sailed from Naples on the 20th. of Dec. At Venice we had an opportunity view all parts and sections of that beautiful and historic city, at Rome all the wonderful Cathedrals and ruins and at Naples went to the top of Mount Vesuvius and visited the Ruins of Pompei which is situated about twelve miles from Naples.

After sailing from Naples on the 20th. of Dec. 1919 we landed at Perlermo, Sicily for a day and a night then passed out the Mediterranean Sea which gave me a good opportunity of viewing Gibraltar stopped in the Azores for coal and arrived in New York Jan. 7th. 1920 after a very eventful twenty one months spent in a service that was always interesting as it made one feel that he was doing something that was doing someone some good and I will always consider myself very fortunate that I had the opportunity to do my bit along with the millions of others.

Respectfully,
Eugene G. Sharp

1. The first part of the report deals with the general situation of the country. It is a very interesting and informative study of the country's development and progress. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's development.

2. The second part of the report deals with the economic situation of the country. It is a very interesting and informative study of the country's economic development and progress. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's economic development.

3. The third part of the report deals with the social situation of the country. It is a very interesting and informative study of the country's social development and progress. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's social development.

4. The fourth part of the report deals with the political situation of the country. It is a very interesting and informative study of the country's political development and progress. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's political development.

Mr./ Wellington E. Gordon,
Local Historian,
Patchogue, N.Y.

Dear Sir:

In compliance with your request of recent date, I have filled out card, and am enclosing same herewith.

In addition to filling out the card, I am giving you all the information I can, that could possibly be of any interest to you. My experiences are as follows:

I was at Halifax at the time of the explosion on December 6, 1917. On December 27, 1917, my ship, the "Florence H", was in a brush with a submarine, which was subsequently sunk by an English patrol boat. On February 12, 1918, we were shelled and hit by a submarine, but escaped still afloat. On March 1, 1918, we were rammed by an English transport, causing the latter to return to New York. Finally, on April 17, 1918, while loaded with ammunition, my ship was blown up in the Bay of Biscay, off the coast of France.

As to photographs, I am exceedingly sorry, but I have none to give you.

I sincerely trust that the information I have given you will prove satisfactory. Should there be anything else I can do for you, I am always at your service.

Yours very truly,

Lule W. Smith

Dr. V. E. Gordon, Historian

Dear Sir —

I — reply to your communication in regard to my services in the World War, I submit the following:

I enlisted in the U.S. N.R.F. (Sea. 2) April 8, 1918, and was called to Pelham Bay June 7, 1918. After about 8 weeks in training camp, I attended the Petty Officers' School for 3 weeks. From this time until my release from active service in December, 1918, I was Petty Officer, with station ratings as Coxswain, B.M. 2 and B.M. 1, respectively. My duties were the training and drilling of newly enlisted men. During this time I was supposed to be "standing by" for my commission as ensign, but after the signing of the Armistice, received my release from active service.

Very Sincerely
Arthur M. Taber

Dear Sir,

I am filling out the card you asked me to, but am sorry to say I was unfortunate not to see the other side so, I don't think my war history worth any notice.

Besides Patchogue people disrespect me so, I don't think anyone cares to see my name amongst the rest.

Thanking you just the same.

Dear Sir

Allow me to send a few items that may be of interest to you.

We landed at Liverpool England & there entrained for Winchester where we remained for ten days. From there we proceeded to South Hampton and across the Channel to "La Havre" France and then to St. Razaire where after ten days we received cars and instructions, proceeding to Versailles where we were attached to the French army, there after being known as S.S.U. 580. After five days we started our journey to the front where we were connected to the 74th Div. French with which we remained three months, later being transferred to the 13th Div. French where we remained untill the armistice was signed.

The extreme point of our travels was Luxembourg where we remained for six months. We were then recalled to base camp and after two weeks we proceeded to Brest and after Ten long days

MASSACHUSETTS HOMOEOPATHIC HOSPITAL

HENRY M. POLLOCK, M. D.
SUPERINTENDENT

EAST CONCORD STREET, BOSTON January 17, 1920.

Dr. W. E. Gordon

Rider Ave.,

Patchogue, N. Y.,

My dear Dr. Gordon;

I am enclosing the slip filled out as you requested and trust it will be satisfactory. You see the medical men did not have a great deal of the actual fighting and hardships experienced by the real dough boy. It was a great privilege however to be able to go over seas and help take care of the boys that were sick and wounded.

While in service I met two of the home boys at camp Devens, Dr. Arthur H. Terry Jr., and Russel Van Tuyl, Overseas I met George Meyers at Savenay, France.

If it is possible to obtain a copy of the History of Patchogue when it is completed I should be very glad to have one.

Wishing you a very happy New Year, I am,

Very truly yours,

W. Franklin Wood
