Dr. W. E. Gordon

Rider Ave.,

Patchogue, N. Y.,

My dear Dr. Gordon;

I am enclosing the slip filled out as you requested and trust it will be satisfactory. You see the medical men did not have a great deal of the actual fighting and hardships experienced by the real dough boy. It was a great privilege however to be able to go over seas and help take care of the boys that were sick and wounded.

While in service I met two of the home boys at camp Devens, Dr. Arthur H. Terry Jr., and Russel Van Tuyl, Overseas I met George Meyers at Savenay, France.

If it is possible to obtain a copy of the History of Patchogue when it is completed I should be very glad to have one.

Wishing you a very happy New Year, I am,

Very truly yours,

Franklin Wood
